Slider (.sdr) — Step-by-Step Generated Video Plan

A 6–8 minute tutorial: install, unzip, venv, build hello, run ACS demo, repo tour, next steps.

Time	Scene	What to Show / Say
00:00–00:20	Hook	Title card; promise outcome
00:20–01:20	Install & Unzip	Show brew/apt/PowerShell + unzip zip; cd repo
01:20–02:40	Venv & Deps	Create venv; pip install; PATH tips for clang/lli
02:40–03:40	Hello	Build IR; run with lli; show output
03:40–05:20	ACS Demo	Build IR; link runtime C; run native; packed FFI; select/timer
05:20–06:20	Repo Tour	sdrc/, runtime/, examples/, docs/, CI
06:20–07:30	Next Steps	mkdocs serve; Makefile; VS Code tasks; CTA

Recording setup: OBS (scenes: Terminal, Editor, Browser, Title), 1080p, 16–18pt font, headset mic, add captions for commands.
